What do I know?	What do I want to know?	How will I find out?	What have I learned?
<p>Subject: <u>Volcanoes (Geography)</u></p> <p>I know that a volcano erupts from the middle of the earth with which is called the inner core. There is a layer in the earth called malt rock and that makes what we call lava. ✓</p>	<p>I want to know how tall is the tallest volcano? How old is the first ever discovered volcano? How hot is lava? Why does a volcano eruption start at the inner core? How many volcanoes are there in the world? How long does a volcano eruption last for. ✓</p>	<ul style="list-style-type: none"> • Read books. • Find it on the internet. • Talk to family, friends or people you know. • Create a model or go and see one. ✓ 	<p>I have learned that there are 1,500 volcanoes in the world. There are lava in a volcano is 1,160 degrees celcius! Mt Etna is the oldest active volcano in the world. Volcanoes can cause global warming because it releases a lot of greenhouse gases. ✓</p>
<p>Digital competencies: <u>Animation</u></p> <p>An animation is like a video and you can alter it. ✓</p>	<p>I want to know how to animate by myself. ✓</p>	<ul style="list-style-type: none"> • Read books. • Find it on the internet. • Talk to family, friends or people you know. • Do it yourself ✓ 	<p>You can do animation by drawing a sequence of pictures, showing a little bit of movement each time. I have used the APP 'I can animate' to create an animation. I can use a timed APP to take pictures every 10 seconds to create a film ✓</p>
